

SOLFIT ASSISTS ACTELION IN GETTING THEIR EDMS SYSTEM UP AND RUNNING

Basel, Switzerland. – September the 21st 2007 - Solfit, Solutions for IT AG, is pleased to announce today that it has successfully finished assisting Actelion Inc. (Allschwil Switzerland) in the initial rollout of their new EDMS project 'iTRACK'. Solfit's involvement with the project is now entering the next phase; that of assisting in managing and growing the system.

'We are pleased to work with Solfit,' said Esther O'Driscoll Project manager of the EDMS project at Actelion, 'as we can profit from Solfit's broad and excellent experience in the installation and deployment of such complex IT Systems'.

'Solfit is both pleased and proud of the quality work done for Actelion', Jasbir Singh CEO of Solfit said, 'we look forward to continuing in this stream as well as building on our positive relationship with Actelion. It has been a pleasure to work with the exciting and innovative people involved in this project'.

The iTRACK environment includes FCG's FirstDoc 4.2 based on DCTM EDMS 5.3 SP3.

###

About Actelion

Actelion Ltd is a biopharmaceutical company with its corporate headquarters in Allschwil/Basel, Switzerland. Actelion's first drug Tracleer[®], an orally available dual endothelin receptor antagonist, has been approved as a therapy for pulmonary arterial hypertension. Actelion markets Tracleer[®] through its own subsidiaries in key markets worldwide, including the United States (based in South San Francisco), the European Union, Japan, Canada, Australia and Switzerland. Actelion, founded in late 1997, is a leading player in innovative science related to the endothelium – the single layer of cells separating every blood vessel from the blood stream. Actelion focuses on the discovery, development and marketing of innovative drugs for significant unmet medical needs. Actelion shares are traded on the SWX Swiss Exchange (ticker symbol: ATLN).
