

Key Advantages of Solfit's Solution

- Support Windows Content servers but also UNIX (Sun, HP, AIX) and Linux
- Not only support for DES but also support strong encryption type (RC4, AES128, AES256)
- Can be used over SSL
- Has the ability to choose and combine various authentication schemes (per user, per docbase etc.)
- Can be used by DFC web and fat client applications
- Can be used not only by basic WDK apps but even with TaskSpace, Web Publisher, Compliance Manager, Records Manager, etc
- Support not only Documentum 6.6 but also older releases (5.2, 5.3, 6.0, 6.5)

Kerberos Comparison

	Solfit's SSO	Documentum 6.6's SSO
Pure SSO (direct login without any action necessary by the user)	✓	✓
True end-to-end Kerberos Authentication, Kerberos used on the Web client, Web Server and DCTM Server	✓	✓
Can be used by MyDocumentum for SharePoint *	✗	✓
Can be used by MyDocumentum for Outlook *	✗	✓
Can be used by MyDocumentum Client Offline *	✗	✓
Can be used by Web DFC applications	✓	✗
Can be used by fat DFC applications	✓	✗
Can be used by some WDK based applications (Webtop, DA)	✓	✓
Can be used by TaskSpace, Web Publisher, Compliance Manager, Records Manager, etc	✓	✗
Can be used by Web DFS applications	✓	✓
Can be used by fat DFS applications	✓	✓
Can be used by Documentum WebDAV	✓	✗
Can be used by CenterStage	✓	✗
Can be used by Application Connectors	✓	✗
Ability to choose and combine various authentication schemes (per user, per docbase etc.)	✓	✗
Can be used by older releases (5.2,5.3, 6.0, 6.5)	✓	✗
Can be used over SSL	✓	✗
Support Strong encryption type DES	✓	✓
Support Strong encryption type (RC4, AES128, AES256)	✓	✗
Support Windows Content Servers	✓	✓
Support Linux and Unix (Sun, HP, AIX ...) Content Servers	✓	✗

* Documentum does not support any customizations

SSO Comparisons

About Solfit

Solfit, Solutions for IT AG, based in Basel, Switzerland and founded in 1997 provides integration, document management, and identity management services. With expertise that includes SSO for Oracle, Documentum, and SAP, Solfit's consulting services span all phases of IT projects, from problem analysis through solution integration and development to post-installation support. Solfit customers include pharmaceutical, finance and chemical industry enterprises such as Novartis, UBS and Syngenta.
